

# ISS Political Science Workshop

日時

2019年11月23日(土)

10: 00 ~ 17: 00

会場

東京大学本郷キャンパス

赤門総合研究棟5階 センター会議室

## Methods for Small-Area-Estimation using Non-Representative Samples

Instructor: Roberto Cerina (Oxford University)

We will introduce methods for using non-representative samples, such as SNS data, to estimate quantities of interest, such as voting behavior. The methods are applicable to a wide variety of fields, and allow researchers to obtain estimates for a fraction of the cost of traditional survey techniques.

Students should have a basic understanding of statistical methods, though a broad range of levels is welcome.

**NOTE: This workshop will be in ENGLISH****SIGNUP: <https://forms.gle/N1zK3a1wQ7aR1dv3A>****申込締切 11月20日 (水)**

ただし定員(各回25名)になり次第、締切
